News: This morning (the 22nd of September) ON announced its financial ambitions for 2029 alongside a share buyback programme and reiterated its guidance for FY26. Specifically, ON plans for strong growth across all verticals through 2029 with its key growth pillars of Run, Sneaker, and Apparel to be supported by **entry into new sports categories: Football and Golf**. The company sees its 2029 ambitions as supported by five reinforcing steps: 1) Create innovative products; 2) Validate through athletes and talents; 3) Deliver premium experiences; 4) Capture high quality earnings; 5) Invest in a culture of innovation and excellence.

FY29 financial targets:

- High-teens constant currency growth and corresponding absolute net sales reaching at least CHF 5.6 billion in 2029 (Visible Alpha Consensus Data 2029 sales of CHF 5.6bn)
- Commitment to a gross profit margin of 65%+ throughout the period (consensus >65% through 2026-2029)
- Ambition to reach adj.EBITDA margin of 22%+ by 2029 (consensus 21.3%), resulting in an adj.EBITDA CAGR above 20% for 2026-2029 period (consensus +19.5% 2026E-29E CAGR)
- Share buyback of up to an aggregate of $1bn through the end of December 2029 authorised

FY26 guidance reiterated:

- **Net sales expected to grow in the low-20% range on a constant currency basis** (consensus cFX +21.9%)
- Gross margin of at least 65% (consensus 65.0%)
- Adj. EBITDA margin in the range of 19.5% to 20% (consensus 19.9%)
- Guidance excludes the benefit of tariff refunds, however up to $65 million (up to CHF 53m at current FX rates) are expected to be received in 3Q26
- 3Q26 cFX growth expected to be c.+17% (consensus +19.2%) reflecting disciplined wholesale sell-in execution and strong momentum in DTC

What does it all mean? Implied 2029 EBITDA of CHF 1,232mn (CHF 5.6bn sales at a 22% adj. EBITDA margin) **is +3.2% ahead of consensus.**

Goldman Sachs does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision. Analysts employed by non-US affiliates are not registered/qualified as research analysts with FINRA in the U.S.

Valuation: Our 12-month DCF-derived price target is $42, implying c.15.2x 2027E EV/EBITDA (c.21.2x EV/NOPAT). We are **Buy**-rated.

Key risks:

What would make us more negative: 1) a lack of new innovations would hinder ON Holding's ability to maintain its premium positioning; 2) with the majority of production based in Vietnam, ON faces a wide range of supply chain risks; 3) fluctuations in foreign currency exchange rates could harm net sales or operational costs; 4) if consumer tastes in China shift towards local brands, growth prospects for ON may be significantly diminished; 5) a slower-than-expected shift in the sales mix towards DTC could see contribution margin downside.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at https://www.gs.com/research/hedge.html.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.
