ONON	12m Price Target: **$44.00**	Price: **$30.16**	Upside: **45.9%**

On Holding announced its financial ambitions for 2029 alongside a share buyback programme and reiterated its guidance for FY26. Specifically, On plans for strong growth across all verticals through 2029 with its key growth pillars of Run, Sneaker, and Apparel to be **supported by entry into new sports categories: Football and Golf.**

FY29 financial targets: 1) High-teens cFX growth and corresponding absolute net sales reaching at least CHF 5.6 billion in 2029; 2) Gross margin of 65%+ throughout the period; 3) adj.EBITDA margin of 22%+ by 2029, resulting in an adj.EBITDA CAGR >20% for 2026-2029; 4) Share buyback of up to $1bn through the end of December 2029.

FY26 guidance reiterated: 1) Net sales to grow in the low-20% range cFX; 2) Gross margin of at least 65%; 3) Adj. EBITDA margin of 19.5% to 20%; 4) Guidance excludes tariff refunds, however up to $65 million (up to CHF 53m at current FX rates) are expected to be received in 3Q26; 5) 3Q26 cFX growth expected to be c.+17%.

Implications: We update **FY26E/FY27E adj. EBITDA to CHF 700mn/855mn** excluding US tariff refunds (from CHF 698mn/848mn), with **cFX sales growth to +20.3%/+17.8%** (from +21.1%/+17.1%), maintain gross margins of 65.0%/65.2%, which with operating leverage drives FY26E/FY27E adj. EBITDA margins of 20.0%/20.6% (from 19.9%/20.4%). Detailed financial forecasts below.

Valuation: Based on the above revisions, our 12-month DCF-derived **price target increases to $44** (from $42), implying c.13.4x 2028E EV/EBITDA (c.17.7x EV/NOPAT, c.21.3x PE). We remain Buy rated.

Key Takeaways

- **2026 guidance reiterated and Q3 trading:** Management reiterated the full year 2026 guidance of cFX sales in the low-20% range, a gross profit margin of at least 65.0%, and an adjusted EBITDA margin in the range of 19.5% to 20.0%. The company noted that in 3Q the business has performed in line with expectations and guided to c.17% cFX growth, reflecting disciplined wholesale sell-in execution previously flagged given a promotional sportswear market in addition to ongoing DTC momentum. Additionally, management highlighted that On teams had worked closely with wholesale partners on strong in-store storytelling. This helped lead to a successful back-to-school campaign, and produced a meaningful uptick in US wholesale sell-out momentum versus Q2 with On having the highest ASP and lowest promotion share in the industry.
- **2029 targets introduced:** On outlined 2029 financial targets as the company enters a period that management describes as premium growth. Specifically, the company aims to reach CHF 5.6bn+ in topline sales by 2029 with the majority of incremental net sales to be driven by three core building blocks: 1) Run, where On hopes to drive innovation-led market share capture; 2) Lifestyle, which will be led by sneakers; and 3) Apparel, where On aims to build greater credibility with the female consumer and aim to triple the apparel business over the next 3 years. Outside of these core building blocks, management highlighted that growth is expected to be supported by other performance footwear within existing verticals of Tennis, Outdoor and Training with a smaller contribution from the newly announced Football and Golf categories. From a margin perspective, management outlined an intention to sustain industry leading gross margins of at least 65% with channel mix and sourcing and manufacturing efficiencies expected to be accretive, offset by investments into product and innovation and category mix. The 2029 adj.EBITDA target of 22%+ is expected to be driven by operating efficiencies and leverage across the company's SG&A base. Specifically, management noted that there is an opportunity of at least 1% or more over the planned period in distribution costs supported by the full automation ramp-up of the Atlanta facility, and further efficiencies in Marketing and G&A. On the other hand, management expects Selling expenses to rise due to the planned expansion of On's store network. Last, the company announced that it expects to move to $USD reporting as early as 2027 in order to ensure the reporting currency aligns closer to the economics of the business and the share price currency.
- **Regional growth expectations:** The company expects growth of low to mid teens % in the Americas. This is underpinned by further wholesale door expansion and scope for comp growth through existing and new verticals in addition to growth in own retail driven by underpenetrated major cities and eCommerce growth supported by brand-awareness expansion and improved omnichannel capabilities. In EMEA, management expects growth to be in the high teens to low 20s. Market share in Southern Europe, Eastern Europe, Benelux and Scandinavia remains c.50% of DACH and UK levels with the gap starting to close and the company sees the core growth drivers in the region as broadly similar to those of the Americas. Last, management expects APAC to be On's fastest growing region with growth expected to be in the

For the exclusive use of EQSUN@BOYUCAP.COM

mid to high 20s. This is underpinned by further elevation of On's premium positioning, with China growth to be underpinned by new stores as well as upgrading and relocating existing stores. The company remains on track to achieve the target of 10% of group sales from China and have meaningfully increased market share in the country. The brand entered the top 20 for sportswear brands for the first time earlier this year during the 618 shopping festival and were the only brand in the top 20 at full price.

- **Entry into Football and Golf:** Management outlined the substantial opportunities in Football and Golf, with On planning to launch a toe to head Golf range in the first half of 2027. The company noted that there has been very little innovation in Golf footwear over the past decade and that there is $5bn spent annually on golf gear from 150mn players that boast the highest spend per consumer of any sport On operates in. In Football, management highlighted a plan for limited drops in 2027 before starting with inline portfolios for cleats and some performance all-day products in 2028. Management framed the market size for Football footwear at c.$29bn growing to c.$38bn by 2030, with the fastest growing categories in APAC and Women's football. The company already saw a strong reaction to the launch with Mbappé last week, earning 8bn media reach, 50.5% share of voice, and 72% of new followers under 35. LightSpray will be central to On's Football entry and management aims to translate the heat from elite performance validation into cultural relevance for the brand with the category to feature in own stores, online and wholesale to contribute to building brand awareness from >30% currently to >50%. Last, management reiterated that the criteria for entering new sports are: 1) Scope for disruption through innovation and Swiss engineering; 2) Builds cultural relevance and widens addressable market; and 3) Scope for premiumisation of the category.
- **Channel:** Management outlined the ambition for D2C to reach 50% of group sales by 2029. This is expected to be driven by own store count expanding from 80 today to 180 by 2029 (with retail to be the fastest growing channel to 2029) and a focus on larger stores which have higher sales productivity and apparel penetration. Management stressed that own retail is not a margin dilutive marketing channel, noting retail profitability sits comfortably above the group adjusted EBITDA margin. In wholesale, management highlighted a substantial opportunity to increase door penetration with key wholesale accounts from 50% today to 75% by 2029. Beyond wholesale door growth, the company noted a comp growth opportunity through deepening existing partnerships, building new verticals, and elevating brand presentation such as through shop-in-shops.
- **Product innovation:** Management highlighted a substantial opportunity in Lightspray and how it will enable greater proximity to the consumer. This drives the premium strategy, allowing On to forecast closer to consumer demand, driving higher full price sales, lower inventory levels, and consequently less closeout stock and volume. On currently has a factory in Zurich and Korea with other factories under construction. Management believes LightSpray will become c.10% of the footwear business, with the technology already being piloted in Lifestyle products. Management also highlighted a new super foam called Surreal which made a

For the exclusive use of EQSUN@BOYUCAP.COM

commercial debut in the Cloudsurfer 3. Surreal is 15% lighter, 20% softer, and 15% more explosive than Helion and will roll out with major franchises' next-generation shoes in the upcoming biggest innovation cycle in On's history.

- **Capital allocation:** On expects to generate more cashflow than the premium playbook requires for reinvestment and maintenance of the company's net cash position. Organic reinvestment remains the number one priority for On with core investment areas in the expansion of the retail store fleet, and technology and infrastructure. The second priority is to maintain a strong balance sheet with a net cash position. The third priority is to deploy excess cash towards a share buyback with the board authorising up to $1bn in share repurchases over the 2026-2029 period.

Key risks:

What would make us more negative: 1) a lack of new innovations would hinder ON Holding's ability to maintain its premium positioning; 2) with the majority of production based in Vietnam, ON faces a wide range of supply chain risks; 3) fluctuations in foreign currency exchange rates could harm net sales or operational costs; 4) if consumer tastes in China shift towards local brands, growth prospects for ON may be significantly diminished; 5) a slower-than-expected shift in the sales mix towards DTC could see

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Regulatory disclosures

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; registered market maker. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at https://www.gs.com/research/hedge.html.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (https://www.sipc.org).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, make a market or act as liquidity provider in, and buy or sell, any securities, derivatives, or other financial instruments referred to in this research (including any financial instruments issued by the companies referred to herein), unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at https://www.theocc.com/about/publications/character-risks.jsp and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to https://research.gs.com.
